Conext™ Solar Mobile App

https://solar.schneider-electric.com/product/conext-gateway/

Schneider Electric

Quick Start Guide

Introduction

The Conext Solar mobile app allows you to monitor your Conext™ Gateway sites from your iOS or Android mobile device. **Note:** The Conext Gateway can only be configured through the Conext Gateway or Conext™ Insight desktop apps. For more information, see the *Conext Gateway Owner's Guide (document number 975-0806-01-xx)* or *Conext Insight Quick Start Guide (document number 975-0953-01-xx)*.
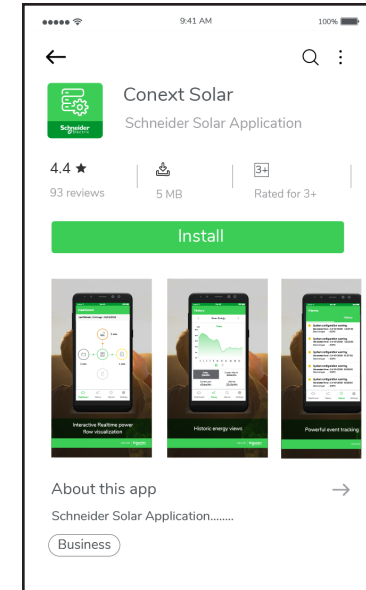

Prerequisites

Before installing the Conext Solar mobile app, you must have the following:

- A Conext™ Insight 2.0 account with connected Conext Gateway sites
- A mobile device: iOS (11.0 and above) or Android (5.0 and above)

Downloading the App

From your mobile device, download the **Conext Solar** app from the App Store® (iOS) or Google Play™ store (Android).

Contact your local Schneider Electric Sales Representative or visit the Schneider Electric website at: http://solar.schneider-electric.com/

Logging in

**To log in to the Conext Solar mobile app:**

1. Accept the terms and conditions.
2. Enter your Conext Insight 2.0 username and password.

Connecting to a Conext Solar

To connect to a Conext Gateway device that is associated with your Conext Insight 2.0 account:

1. Select a Conext Gateway from the **Select Gateway** screen and then press **Select**.

2. Enter the password. **NOTE:** This must be the unique password for your Conext Gateway **User** account. For more information about the different types of accounts and changing passwords, see the *Conext Gateway Owner's Guide (document number 975-0806-01-xx)*.

3. Once you are connected to a Conext Gateway, you will see a **Dashboard** (a live overview of the site), **History** (historical data), **Alarms**, and **Settings** (where you can select a different Conext Gateway).
